

## DECLARATION OF PERFORMANCE **BT NMÉ: 176/23/4/2021**

1. Unique identification code of the product: **Barabas Quick Edge, straight and/or curved.**
2. Type, batch serial number or other marking that may be necessary for the identification of the building material: **Barabás Stone Design Kft., Barabas Quick Edge, straight and/or curved.**
3. Intended use of the building material as defined by the manufacturer: **it may be used to support the sides of paving slabs having a straight or curved geometry, or to delimit the paved surface. The stability of the inverted T-shaped plastic edging profile is enhanced by the geotextile extending beneath the paving surface and by the flat plastic profile on the inside of the T-shaped edging profile, which can be secured with nails.**
4. Name and address of the manufacturer: **Barabás Stone Design Kft., 1 Hancs Str. Veszprem, 8200 Hungary**
5. Assessment and verification system for the durability of the building material according to Appendix V: **system 4**
6. Declaration of performance:

Basic characteristics	Value	Evaluation method
Geotextile		
- longitudinal and transverse tensile strength, kN/m	≥ 11,5	EN ISO 10319
- transverse elongation at break, %	≥ 90	EN ISO 10319
- longitudinal elongation at break, %	≥ 75	EN ISO 10319
- static tear resistance (CBR test), N	≥ 1750	EN ISO 12236
- dynamic tear resistance (cone drop test, Ø of hole), mm	≥ 20	EN ISO 12236
Fire safety	NDP	
Hygiene, health and environmental protection	NDP	
Safe use and accessibility		
Geotextiles		
- Vertical water flow coefficient I/m <sup>2</sup> s (mm/s)	≥ 100	EN ISO 12956
Noise protection	NDP	
Energy saving and thermal protection	NDP	
Sustainable use of natural resources	NDP	
Tolerance of edge profiles		
- dimensional tolerance (% of nominal value)	± 5	calibrated length measuring device

7. The performance of the product defined in points 1 and 2 corresponds to the performance indicated in the Declaration in point 9 herein.

8. Signed for and on behalf of the manufacturer:

Árpád Barabás  
owner
